Project Description

Embanet is an integrated, full service provider of online program design and development, marketing, enrollment and technology support services for post-secondary educational institutions across North America. The company provides mission critical services that allow its clients to generate new revenue streams through the launch of online programs and to effectively deliver technology support services to maximize student satisfaction and retention. Tactico invested in the company along with two California-based private equity firms and provided 18 months of post-acquisition executive management during its restructuring.
